7. AOB - IETF

APIA Members discussed the role that APRICOT-APIA could play vis a vis the IETF. Members felt that while the nature of the IETF and APRICOT events are not very similar, it may still be possible for us to facilitate hosting a future IETF meeting in some parts of Asia (but not as a co-located event with APRICOT). Since the IETF, like APRICOT, depends on sponsorships (local and international) as well local knowledge (typically under the umbrella of a host), we may collectively be able to assist the IETF (through ISOC) with venue selection and other event management aspects. As it happens, the IETF will not return to Asia for a couple of years following the Beijing IETF in November 2010.

There being no other business, the APIA AGM ended at 1.30 pm

Confirmed Correct as Minutes of the APIA AGM
